Diamond Key International

DKI attends PDB Technology Showcase

In October, DKI Malaysia were invited to take part in a Technology Showcase that Petronas had organised. The showcase was an event for the PDB and Petronas staff to see and review the different technology suppliers Petronas use in their every day operations across the business. Vendors were invited from across Petronas operations from upstream to retail to take up booths at the Kuala Lumpur Convention Centre (KLCC) where it was held. Over the one day event, Petronas staff had the opportunity to meet, greet and discuss solutions with the vendors.

Ungku Haslina Ungku Mohamed Tahir (PDB General Manager—Supply & Distribution Division, Lily Chen—CEO of DKI

The event was opened by Nur Azmin Abu Bakar, General Manager Corportae Services Department (CSvD) and Amir Hamzah, PDB Chief Executive Officer as the Guest of Honor who welcomed the visitors and vendors.

DKI booth was staffed by the DKIM Sales team and portrayed the history of DKI solutions at Petronas fuel terminals and also the future direction of Omega TAS software, Omega 5000. Our booth showed visually our established history with Petronas that started in 2002 with the installation at Prai terminal through to our latest solutions involving Omega 5000. During the event visitors had the opportunity to discuss with DKIM the current solutions and how they are being applied both locally and internationally.

The one day event event attracted more than 500 visitors and was given the seal of success by Alain Lai, PDB Senior Manager Business Technology Department.

Tim (Regional Manager), Alain (PDB Senior Manger), Lily, Haida (Assistant Sales Manager-DKIM), Faiz (Head – Information Management Unit,BTD)
