

DKI Total Information Management Solutions

Information, is today's most valuable business asset

Your data is the lifeline of your company, will you be prepared if it is lost or destroyed?

80 percent of all business data is stored on computer, yet 99 percent of businesses don't regularly backup.

How would you deal with a partial or complete loss of your important business information?

Has it happened to you yet? Statistics show it will!!

It happens every day thanks to viruses, natural disasters, theft, equipment failure or just plain computer crashes.

*Having offsite data backups are
INSURANCE for your business*

Do you have a backup process?
Do you have a disaster recovery plan?

Many businesses believe that their tape backup process provides the security they need.

However over 85 percent of all tape backup systems fail due to:

- Human failure to run backups according to schedule, on time, every time
- Failure to rotate backup media
- Failure to replace tapes based on use/life of tape
- Tape loss due to fire/theft
- Backup media failure
- Backup drive failure

*DKI safeguards our customers' data, providing
totally managed solutions, customised to
address individual requirements*

Data Storage Solutions

DKI offer managed data storage solutions across many platforms and operating systems with our Data Centre ensuring the integrity of all data within a secure, controlled environment.

The Data Centre employs leading-edge security technologies that exceed what most organisations are able to maintain themselves.

We optimise your storage requirement therefore offer the most cost-effective solution.

We offer a default recovery service with rapid and accurate retrieval processes required to restore business operations.

*DKI Data storage solutions are specifically
designed to give you PEACE OF MIND*

Disaster Recovery Solutions

DKI understands that your 'Mission Critical Systems' are essential to the successful delivery of business services. Downtime for any reason will adversely impact on the ability to satisfy your customers' needs.

We give you peace of mind that even in the most catastrophic of circumstances, your operation can be functioning in as little as a few hours.

We provide on a 24x7 basis secure storage, protection and restoration for your backup data.

When you transfer your data to DKI Data Centre, you INSURE your most recent data backup from the leading causes of data loss:

- Hardware or system malfunction
- Human error
- Software Malfunction - Viruses
- Natural disasters

Our solutions are designed to be secure, simple and affordable, offering various levels of access, storage and support.

*Our solutions ensure that when disaster strikes,
your disaster recovery plan is invoked to begin
building your business systems promptly*

Data Archive Solutions

DKI Data Centre provides a service important for archiving those irreplaceable records over longer periods of time that may be required for business audit or legislative reasons.

*DKI provides you with peace of mind knowing
your data is safe, secure, offsite and accessible*
